

Michael McMillan

Michael McMillan is the President & CEO of HEABC. He has extensive health care operational experience and knowledge of the BC health care system, which he gained through increasingly senior health care administration roles to his leadership role at HEABC.

Michael was Chief Operating Officer, Northern Interior Health Service Delivery Area for Northern Health, where he was responsible for the delivery of high-quality health care services in Northern Health's most populous health service delivery area. Before spending 18 years in the North, Michael held leadership roles at Peace Arch Hospital in White Rock and Vancouver General Hospital.

Michael has led HEABC in the preparation and execution of a bargaining strategy to renew the health sector collective agreements and the BC Physician Master Agreement, focusing on collaboration and a shared commitment to improving both the working environment for health care professionals and the health care services that BC residents rely on. In total, the agreements cover approximately 130,000 employees and physicians with an annual cost of approximately \$15 billion.

Michael has a B.Sc. in pharmaceutical sciences and an MBA, both from the University of BC.
